

## PRODUCT NAME

Countertops from HPL 12 mm

Countertops are made of high-pressure decorative laminates (HPL) 12 mm. The high durability of the surface, resistant to dirt and external factors, combined with a wide range of colors, form, with HPL essential tool for designers. Due to the fact that the boards are not exposed to corrosion, moisture and impact of biological factors and oxidation, there are not used special measures to protect the surface - such as coating paint and other coatings. The board surface has a high resistance and durability to dirt.

### ABILITY TO MAINTENANCE CLEAN AND HYGIENE

Because of the board surface features, requires care cost are low. High pressure decorative laminates are easy to clean and for keeping them clean so they are suitable for use in conditions that require the preservation of hygienic conditions, i.e. in hospitals, medicinal products factories, food factories, slaughterhouses, sanitary facilities, etc. For routine cleaning it is sufficient to wipe the surface with water and a mild detergent; in applications where it is required can be used methods such as washing with hot water hose or steam cleaning. It is also allowable to use solvents such as mineral spirits, acetone or diluents cellulose (eg. To remove graffiti) because they do not work on the laminate.

When used in hospitals and operating blocks, HPL surfaces can be disinfected with conventional disinfectants such as: 70% ethanol, 0,3% p-chloro-m-cresol, formalin at a concentration from 1% to 5%, chloramine T at concentration from 1% to 5%, 0,1% alkylbenzyltrimethylammonium chloride. High pressure decorative laminates show a high resistance to growth of fungi and bacteria.

### TECHNICAL DATA

<b>MATERIAL:</b>	high-pressure decorative laminates (HPL) 12 mm
<b>COUNTERTOP DEPTH:</b>	600 mm
<b>FRONT COVER:</b>	200 mm
<b>SUBSTRUCTURE:</b>	powder coated metal supports, aluminum angles
<b>PRIMARY COLORS:</b>	to determine

There is a possibility of making the product in other dimensions by adjusting to the room requirements.
